# POSTER GUIDELINES

## HOW TO DESIGN AN AWARD-WINNING CONFERENCE POSTER

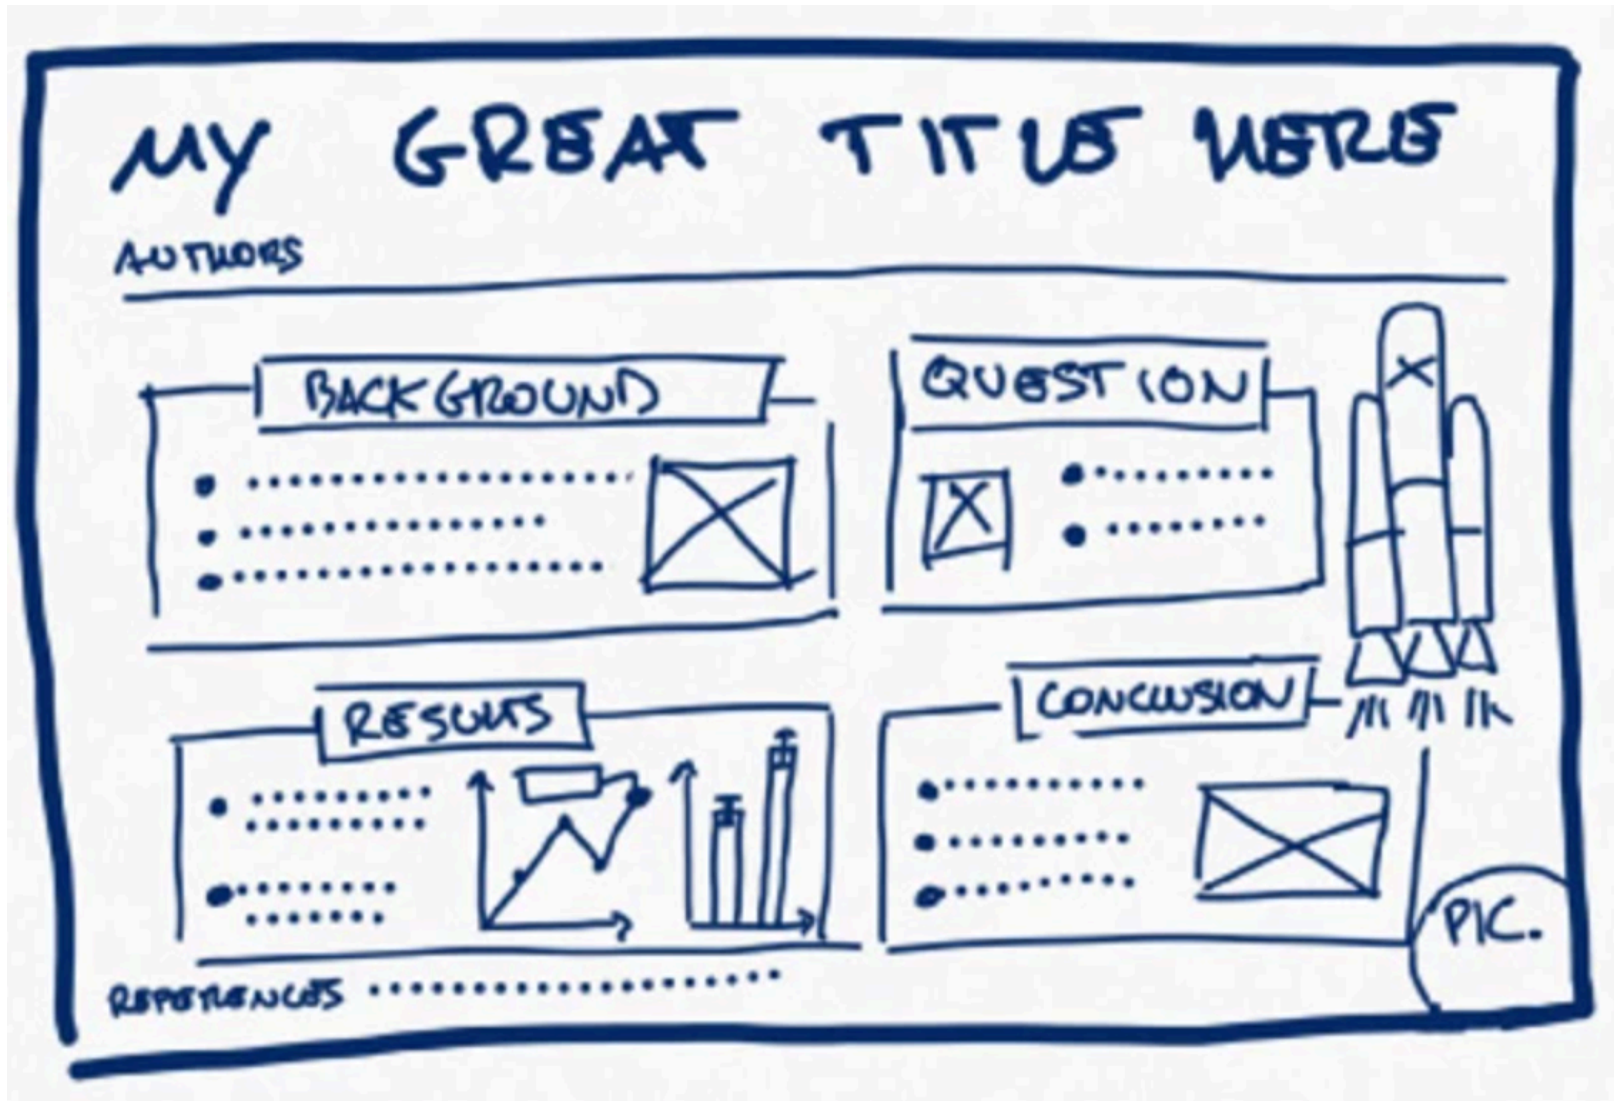

# Remember

---

**A poster is a visual abstract of your research**

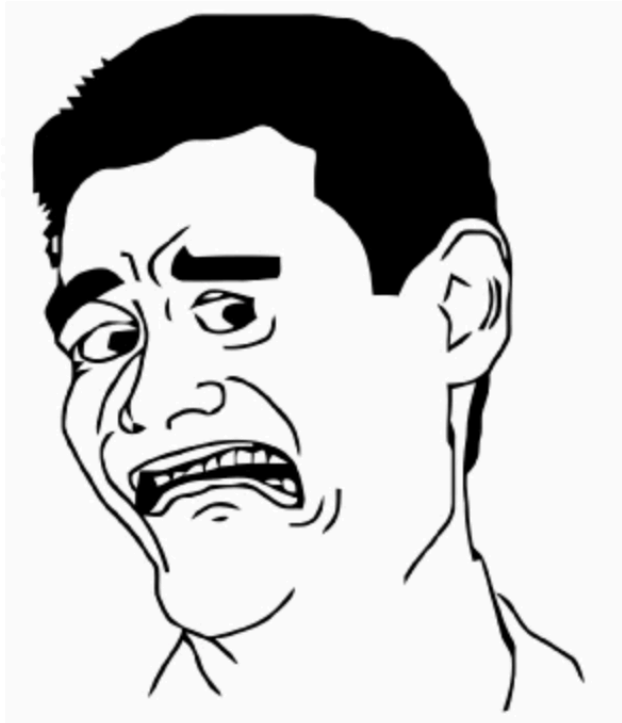

# Sections

# Avoid (colors)

---

**Kill me now!**

**I want to burn your retina!**

# Avoid (fonts)

---

**Good Title**

Good body text

**Good Title**

# More helpful hints

---

Remember:

- Simple, effective data display
- Small blocks of supporting text, images and graphs say much more than words
- Avoid resolution problems with your images (at least 150 dpi, but no more than 300 dpi)
- Be aware of busy backgrounds

# Final check

---

Does your poster fit with these points?

- Can you read the type?
- Does it look too busy?
- Do my main points pop out?

# Last but not least

---

rehearsh,  
rehearsh,  
rehearsh.

# EVALUATION CRITERIA

---

- Feasibility
- Innovation
- Presentation quality
- Scientific impact

# Stem Cells course Projects

---

## **Group I:** Telomeropathies (including laminopathies)

I: Muskaj, Vastarelli, Salvati, Spagnoli

II: Benassi, Marzi, Zavarelli, Leidi

## **Group II:** Cancer

Bonanni, Ranieri, Mariani, Appolloni

## **Group III:** Fibrous dysplasia

Brunone, Crudeli, Di Graci, Paci

Gavillucci (altra modalità esame)

Phase 1: background

Phase 2: project presentation

# Next appointments

---

focus on Crispr

12/11/2020 h 12-14

18/11/2020 h 14-16

or 'in differita' request access starting from 13/11/2020

---

group work – final

17/11/2020

h 12-14

# Deadlines

---

send mock project by  
**maximum December 7, 2020**

---

Poster presentation  
15/12 and 17/12  
h 15-17
